

MD. HASIM

Software Development Engineer

Mehrauli, New Delhi — 110030 | 7982323227 | mdhasim1923070@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

Final-year Computer Science & Engineering student passionate about building AI-driven applications. Strong foundation in Data Structures & Algorithms (500+ LeetCode problems) and hands-on experience with full-stack development using React.js, Node.js, Express, MongoDB. Experienced in building and deploying machine learning models integrated with modern frontend.

TECHNICAL SKILLS

Languages: Python, C, C++, Java, JavaScript

Libraries & Frameworks: NumPy, Pandas, Matplotlib, Scikit-learn, LangChain, Next.js, MongoDB, Flask, Express

Skills: React, MongoDB, Express, Node.js, Machine Learning, Data Visualization

RELEVANT PROJECTS

Gemini Voice Studio | *Next.js, Gemini API, Web Audio API*

- Developed a generative audio platform supporting multi-speaker TTS and Prompt-to-Podcast creation, with a fully integrated Next.js frontend.
- Integrated Gemini's text capabilities to automate content scripting and tone modulation.
- GitHub: github.com/Mdhasim-tech/Gemini-Voice-Studio

Smart Retail Intelligence | *Python, Scikit-learn, React*

- Built a smart Retail Dashboard for customer segmentation, with ML models integrated directly into an interactive frontend for real-time visualization.
- GitHub: github.com/Mdhasim-tech/Smart-Customer-Dashboard

Disease Predictor & Recommendation App | *Python, Scikit-learn, Flask, React*

- Developed a disease prediction and recommendation system using a Naive Bayes classifier, integrated with a frontend for live user input and instant results.
- GitHub: github.com/Mdhasim-tech/Disease-Prediction-and-recommendation

RAG Pipeline — Document Assistant Chatbot | *LangChain, ChromaDB, Groq API, React, Flask*

- Built an end-to-end Retrieval-Augmented Generation (RAG) chatbot enabling live document upload and conversational Q&A over user-provided documents.
- Implemented document chunking, vector embeddings with ChromaDB, and semantic retrieval to provide context-aware responses.
- GitHub: github.com/Mdhasim-tech/Document-Assistant-RAG-Chatbot

Containerized ML Microservice | *Docker, Docker Compose, Flask*

- Containerized a full-stack ML application into Docker images, ensuring 100% environment parity across dev and production.
- Implemented an end-to-end workflow on the Iris dataset entirely within a containerized environment.
- GitHub: <https://github.com/Mdhasim-tech/Iris-dockerized-app>

EDUCATION

B.Tech in Computer Science Engineering (2023–2027)

Dr. Akhilesh Das Gupta Institute of Professional Studies — IPU University Delhi

Final Year | CGPA: 8.4

CERTIFICATIONS

- IBM Certified Artificial Intelligence Practitioner
- IBM: Build Your Own Chatbot
